

## INDEX

- Addison's disease, non-tuberculous, and its relationship to 'giant-cell granuloma' and multiple glandular disease, 403; incidence of non-tuberculous Addison's disease, 408; aetiology of non-tuberculous Addison's disease, 408.
- Adenoma sebaceum in cases of pulmonary tuberculous sclerosis, 114.
- Anaemia, macrocytic, ascorbic acid requirements and urinary excretion of *p*-hydroxyphenylacetic acid in, 307.
- Antirabic treatment, 'neuroparalytic accidents' of, 16.
- Ascorbic acid requirements and urinary excretion of *p*-hydroxyphenylacetic acid in steatorrhoea and macrocytic anaemia, 307.
- Biological actions and therapeutic applications of nitrogen mustard, 231; chemical reactions, 232; biological actions, 232; therapeutic applications, 235.
- Blood-pressure of obese hypertensive women, the effect of weight reduction upon, 331.
- Clinical diagnosis of pulmonary hypertension in patients with mitral stenosis, 105.
- Diabetes insipidus: water-losing nephritis, a syndrome simulating, 147.
- Diphtheria immunization, 15.
- Effect of weight reduction upon the blood-pressure of obese hypertensive women, 331.
- Effects of peripheral arterial embolism, 73.
- Electrolyte depletion in pyloric stenosis, 367; plan of study and technical methods, 367; serum-electrolytes, 369; sodium balance, 370; potassium balance, 371; chloride balance, 371; interrelations, 372.
- Embolism, peripheral arterial, effects of, 73.
- Familial factor V deficiency: the pattern of heredity, 323.
- Five-year assessment of patients in a controlled trial of streptomycin in pulmonary tuberculosis, 347; plan and conduct of the trial, 347; comparability of the two treatment series, 348; results during the five-year period, 350; prognostic factors in acute bilateral pulmonary tuberculosis in young adults, 356.
- Ganglion-blocking agents in the treatment of pink disease, 223.
- Gastro-intestinal disorders, studies of uropepsinogen excretion in, 291.
- 'Giant-cell granuloma' and multiple glandular disease: non-tuberculous Addison's disease and its relationship to, 403; and the other pituitary granulomata, 425.
- Heart failure, congestive, complicating chronic lung disease: pulmonary hypertension in, 57.
- Heredity, the pattern of: familial factor V deficiency, 323.
- Hydroxyphenylic acids, paper-chromatographic technique for identification of, 307.
- Hypertension, pulmonary, in congestive heart failure complicating chronic lung disease, 57.
- , —, in patients with mitral stenosis: clinical diagnosis of, 105.
- Hypertensive retinopathy and its medical treatment, 441.
- Hypoparathyroidism, idiopathic, 383; pseudohypoparathyroidism, 393; biochemical findings, 394.
- Idiopathic hypoparathyroidism, 383; pseudohypoparathyroidism, 393; biochemical findings, 394.
- Inoculation, pertussis, 12.
- , prophylactic, neurological sequelae of, 1; neurological complications of serum administration, 2; typhoid-paratyphoid vaccine (T.A.B.), 9; tetanus toxoid, 12; pertussis inoculation, 12; diphtheria immunization, 15; 'neuroparalytic accidents' of antirabic treatment, 16; miscellaneous immunizing agents, 18; neurological sequelae of skin-testing, 19.

- Kidney, polyuria in certain other conditions affecting the, 159.
- Lung disease, chronic, pulmonary hypertension in congestive heart failure complicating, 57.
- Macrocytic anaemia, ascorbic acid requirements and urinary excretion of *p*-hydroxyphenylacetic acid in, 307.
- Meningitis, tuberculous, spinal complications of, 275; definition and incidence, 275; clinical picture of transverse myelitis, 277; relationship of transverse myelitis to the presence of spinal block, 285; relationship of spinal block to mortality, 286.
- Mental deficiency in cases of pulmonary tuberous sclerosis, 114.
- Mitral stenosis, clinical diagnosis of pulmonary hypertension in patients with, 105.
- Myelitis, transverse, clinical picture of, 277; relationship of, to the presence of spinal block, 285.
- Myelomatosis, renal changes in, 158.
- Nephritis, water-losing, 147; renal changes in myelomatosis, 158; polyuria in certain other conditions affecting the kidney, 159; pathogenesis, 161.
- Neurological sequelae of prophylactic inoculation, 1; neurological complications of serum administration, 2; typhoid-paratyphoid vaccine (T.A.B.), 9; tetanus toxoid, 12; pertussis inoculation, 12; diphtheria immunization, 15; 'neuromyolytic accidents' of antirabic treatment, 16; miscellaneous immunizing agents, 18; neurological sequelae of skin-testing, 19.
- Nitrogen mustard, biological actions and therapeutic applications of, 231; chemical reactions, 232; biological actions, 232; therapeutic applications, 235.
- Non-tuberculous Addison's disease and its relationship to 'giant-cell granuloma' and multiple glandular disease, 403; incidence of non-tuberculous Addison's disease, 408; aetiology of non-tuberculous Addison's disease, 408.
- Osteomalacia in steatorrhoea, 165.
- Paper-chromatographic technique for identification of hydroxyphenylic acids, 307.
- Peripheral arterial embolism, effects of, 73.
- Pertussis inoculation, 12.
- p*-hydroxyphenylacetic acid in steatorrhoea and macrocytic anaemia, ascorbic acid requirements and urinary excretion of, 307.
- Pink disease, the autonomic disorder and its treatment with ganglion-blocking agents, 215; the normal response in relation to age, 217; the response in cases of pink disease, 219; ganglion-blocking agents in pink disease, 223.
- Pituitary gland, granulomata of, 428.
- Polycythaemia vera, treatment of, with radiophosphorus, 91; haematological results, 94; clinical results, 101.
- Polyuria, in water-losing nephritis, 147; in certain other conditions affecting the kidney, 159.
- Proceedings of the Association of Physicians of Great Britain and Ireland, 1954: Forty-eighth Annual General Meeting, 451.
- Prophylactic inoculation, *see* inoculation.
- Pulmonary hypertension in congestive heart failure complicating chronic lung disease, 57.
- in patients with mitral stenosis, clinical diagnosis of, 105.
- tuberculosis, five-year assessment of patients in a controlled trial of streptomycin in, 347; plan and conduct of the trial, 347; comparability of the two treatment series, 348; results during the five-year period, 350; prognostic factors in acute bilateral pulmonary tuberculosis in young adults, 356.
- tuberous sclerosis, 113.
- Pyloric stenosis, electrolyte depletion in, 367; plan of study and technical methods, 367; serum-electrolytes, 369; sodium balance, 370; potassium balance, 371; chloride balance, 371; interrelations, 372.
- Radiophosphorus, treatment of polycythaemia vera with, 91; haematological results, 94; clinical results, 101.
- Retinopathy, hypertensive, and its medical treatment, 441.

- Rheumatic fever, salicylates in, an attempt to assess their value, 177.
- Salicylates in rheumatic fever, an attempt to assess their value, 177.
- Sarcoidosis, 29; presenting symptoms and signs, 31; organs involved, 32; histology, 35; tuberculin test, 39; treatment, 49.
- Sclerosis, tuberous, historical review of, 113; forms of, 124; nature of, 136.
- , —, pulmonary, 113.
- Sequential tests in prophylactic and therapeutic trials, 255.
- Serum administration, neurological complications of, 2.
- Skin-testing, neurological sequelae of, 19.
- Spinal block, relationship of transverse myelitis to the presence of, 285; relationship of, to mortality, 286.
- cord complications of tuberculous meningitis, 275; definition and incidence, 275; clinical picture of transverse myelitis, 277; relationship of transverse myelitis to the presence of spinal block, 285; relationship of spinal block to mortality, 286.
- Steatorrhoea, ascorbic acid requirements and urinary excretion of *p*-hydroxyphenylacetic acid in, 307.
- osteomalacia in, 165.
- Stenosis, mitral, clinical diagnosis of pulmonary hypertension in patients with, 105.
- , pyloric, electrolyte depletion in, 367; plan of study and technical methods, 367; serum-electrolytes, 369; sodium balance, 370; potassium balance, 371; chloride balance, 371; interrelations, 372.
- Streptomycin in pulmonary tuberculosis, five-year assessment of patients in a controlled trial of, 347; plan and conduct of the trial, 347; comparability of the two treatment series, 348; results during the five-year period, 350; prognostic factors in acute bilateral pulmonary tuberculosis in young adults, 356.
- Studies of uropepsinogen excretion in gastro-intestinal disorders, 291.
- T.A.B., 9.
- Tetanus toxoid, 12.
- Treatment of polycythaemia vera with radiophosphorus, 91; haematological results, 94; clinical results, 101.
- Tuberculin test for sarcoidosis, 39.
- Tuberculosis Chemotherapy Trials Committee of the Medical Research Council, Report to the, 347.
- Tuberculosis, pulmonary, five-year assessment of patients in a controlled trial of streptomycin in, 347; plan and conduct of the trial, 347; comparability of the two treatment series, 348; results during the five-year period, 350; prognostic factors in acute bilateral pulmonary tuberculosis in young adults, 356.
- Tuberculous meningitis, spinal cord complications of, 275; definition and incidence, 275; clinical picture of transverse myelitis, 277; relationship of transverse myelitis to the presence of spinal block, 285; relationship of spinal block to mortality, 286.
- Tuberous sclerosis, historical review of, 113; forms of, 124; nature of, 136.
- , —, pulmonary, 113.
- Typhoid-paratyphoid vaccine (T.A.B.), 9.
- Urinary excretion of *p*-hydroxyphenylacetic acid in steatorrhoea and macrocytic anaemia, ascorbic acid requirements and, 307.
- Uropepsinogen excretion in gastro-intestinal disorders, studies of, 291.
- Water-losing nephritis, 147; renal changes in myelomatosis, 158; polyuria in certain other conditions affecting the kidney, 159; pathogenesis, 161.
- Weight reduction, effect of, upon the blood-pressure of obese hypertensive women, 331.
- Women, obese hypertensive, the effect of weight reduction upon the blood-pressure of, 331.
